

HOW IT WORKS

- Bank outsources all ATM functionality bringing greater cost, overhead and general efficiencies
- Bank will partner with proven experienced partner
- Potential to turning a loss making channel into a profit for the bank
- Our new infrastructure provides improved functionality, reporting and efficiencies
- No build costs as service live already
- Decades of outsourcing experts in the ATM industry
- Full outsource of all service, we do not select those services we require
- Knowledge of countries regulatory requirements, bringing a fully compliant solution
- Optimising your ATM channel, driving the brand and services
- Potential to align ATM channel with other bank channels
- Create new ATM functionality and services to support present and future client requirements
- Future proof solutions

ADVANTAGES

- Efficiency across the board, overhead, services and costs
- Tailored to the bank needs & customers' requirements
- Branding and customer experience
- Driving costs down through efficiencies
- Management of scheme rules to drive costs & income
- Long term benefits, making it more profitable to the customer overall
- Greater cash availability for the client, currently operating above 99%
- Simplifies the management process with a single point of contact with SLAs
- Channel aligned with bank strategy
