

AUTOMATED BRANCHES

Bank clients, SMEs and the public, can deposit or change their money at multi-service devices in various convenient locations.

This efficient and convenient systems for small and medium businesses automates services allowing banks to reduce overhead dependency. Cash recycling and 24hr change machines are available for local businesses.

Couple this with the advantage that Banks maintain a presence in less populated areas mean more services for customers.

Functionality can include any variation of:

- Bag drop including mixtures of notes, coins and cheques
- Note deposit
- Coin deposit
- Note dispensing
- Rolled coin dispensing
- Locker support to allow documents, valuables and other services to the clients

HOW DOES IT WORK?

- Banks retain their loyal customers with less dependency on traditional services
- Lower running cost than a branch
- Banks retain a high street presence
- Increased profit
- Efficiency through automation allowing bank to focus on sales channel
- Potential for stronger sales channel to be developed
- Alignment of branch services with core bank channel strategy

BANK BENEFITS

- Banks retain their loyal customers with less dependency on traditional services
- Lower running costs than a branch
- Banks retain a high street presence
- No staff needed, therefore increased profit
- Efficiency through automation allowing bank to focus on sales channel
- Potential for stronger sales channel to be developed
- Alignment of branch services with core bank channel strategy

ADVANTAGES

AUTOMATION IS DEPLOYED EASILY WITHOUT THE NEED FOR HIGH BUILD COSTS

NO NEED FOR LARGE IT INTEGRATION PROJECTS AS SERVICES CAN BE SETUP AROUND EXISTING BANK FUNCTIONALITY

REPORTING, MANAGEMENT AND SERVICES CAN BE ALIGNED EXACTLY WITH THE BANK REQUIREMENTS

BRANDING WILL BE THAT OF THE BANK, PROVIDING CONSISTENCY AND CUSTOMER LOYALTY
